27th May 2022

Dear Industry Participant

RE: Notice of NTS Annual Yearly (Entry and Exit) Interconnection Point (IP) Reserve Prices

The Annual Yearly Auctions for NTS Entry and Exit Capacity at Interconnection Points will be held during July 2022 for capacity from 1st October 2022 to 30th September 2037.

National Grid is publishing this Notice of change to NTS Transportation Charges to provide at least one month in advance of the next Annual Yearly Auctions, consistent with our Licence obligations.

Reserve prices for the Annual Yearly and Annual Quarterly auctions are calculated in accordance with the arrangements set out in section Y of the Uniform Network Code (UNC), and UNC Code Modification 0796¹, which was approved by Ofgem, for implementation from 1 October 2022, on 25th May 2022.

IP Entry Capacity Reserve Prices

The reserve prices for the Entry Capacity Annual Yearly IP Auction are detailed in Table 1 below. (These prices will apply to the Entry Annual Quarterly IP Auction.)

IP Exit Capacity Reserve Prices

The reserve prices for the Exit Capacity Annual Yearly IP Auction are detailed in Table 2 below. (These prices will apply to the Exit Annual Quarterly IP Auction.)

NTS large price steps for a Capacity Annual Yearly IP (Entry and Exit) auction will be the greater of 5% of the applicable reserve price and 0.0001 p/kWh/day.

The transparency data on charges and the values that underpin them, in accordance with the EU Tariff Code, is to be published before the end of August 2022. In the meantime, National Grid will be looking to host a webinar that will provide an opportunity for National Grid to talk through the charges, including the revenue values that underpin them along with an update on key changes to how specific inputs have been calculated. We will communicate more details on this in June.
