

Britain's Gas Explained

March 2023

March 2023

Where has our gas come from?

Entry Points

 UK/Norwegian Gas Fields	61%	↓ 1%
 LNG Imports	33%	↑ 1%
 European Imports	<1%	0%
 Storage Withdrawal	6%	0%

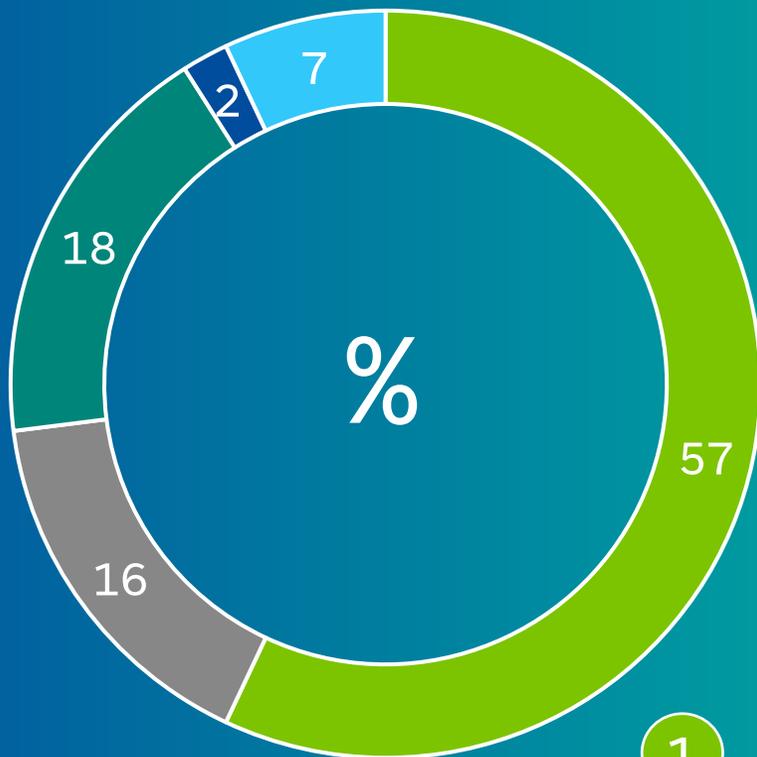

% change from previous month

 More Info

-  Natural Gas is cooled into liquid form where it can be transported via ships around the world.
-  UK and Norwegian offshore gas fields supply gas to our network.
-  Gas in storage is delivered from multiple sites across the UK, primarily onshore gas reservoirs and salt caverns.

More Info

1

Gas can leave our transmission network into distribution networks which supply houses, factories, offices, power stations, hospitals etc.

2

Some power stations and industrial plants are connected directly to our transmission network.

3

Exports to Ireland* refer to the whole isle of Ireland incl. Northern Ireland

March 2023
