Dear David,

Notice of Revised Final NTS Exit (Flat) Capacity Charges effective from 1 October 2020.

I am writing to provide notice of our intention to change the NTS Exit (Flat) Capacity Charges for the next Exit Capacity auction which will be held during July 2020.

This notice is issued in accordance with National Grid Gas ("National Grid") Transporters Licence and our obligations contained in the Uniform Network Code in relation to changes to transportation charges and to the annual application for Enduring Annual NTS Exit (Flat) Capacity.

We published a set of Exit Capacity prices that would be effective from 1 October 2020 on the 30th April 2020 and subject to change should the decision on UNC0678/A/B/C/D/E/F/G/H/I/J require it. The NTS Exit (Flat) Capacity charges are being updated in line with the decision to implement UNC0678A for October 2020. We will therefore be publishing the final NTS Exit (Flat) Capacity prices to reflect implementation of UNC0678A and the charging methodology it updates from 1 October 2020.

These charges will be calculated in accordance with the arrangements as set out in UNC Modification 0678A and published by 5th June 2020.

If you have any questions about this Notice please contact Dave Bayliss on 01926 656853 or email our charging team at NTS.GasCharges@nationalgrid.com.

Yours sincerely,

Steve Fisher
