

European Developments

Transmission Workgroup
5th September 2013

EU CMP Update

Transmission Workgroup
5th September 2013

Congestion Management Procedures - CMP

Congestion Management Procedures – Modification Proposal

- Modification Proposal 0449 raised by NTS
 - ‘Introduction of Interconnection Points and new processes and transparency requirements to facilitate compliance with the EU Congestion Management Procedures’

- Modification UNC0449 completed development through the Tx Workgroup process
 - Representations made unanimously supported implementation
 - August Panel recommended Final Modification Report be implemented
 - With Ofgem for decision.

EU Interoperability & Data Exchange Network Code

Update for Transmission Workgroup

5th September 2013

EU Interoperability Code: Current Position

- The Interoperability Code and an accompanying 'Analysis of Decisions' document* are currently progressing through ENTSOG's internal governance procedures
- ENTSOG is on track to deliver the draft Code to ACER by its 11th September deadline
- ACER's 3 month period to review the Code will then follow

* The purpose of this document is to explain the policy options chosen by ENTSOG which are documented in the Code

Allocations Regime at IPs – a reminder

- At last month's Workgroup, National Grid NTS announced it was interested in GB shipper views on the potential for a new 'allocate as nominate' plus OBA regime for shipper allocations at GB IPs
- (Limited) feedback received so far has been supportive of such a reform to GB arrangements at IPs
- Further feedback is welcome to philip.hobbins@nationalgrid.com or on 01926 653432
- We would be happy to arrange bilateral meetings with any interested parties to further discuss this issue

Code Status Update

Code	Current Status	Implementation date
Congestion Management (CMP)	UNC0449 Modification raised and progressed via the Tx Workgroup process. With Ofgem for a decision.	1st October 2013 (Fixed)
Capacity Allocation Mechanism (CAM)	CAM approved for EU Wide Implementation at relevant EU IPs 1st November 2015.	1 November 2015 (Fixed)
Gas Balancing	ACER approved the code on 20th March 2013 and comitology started in July 2013. The next [and final] comitology meeting is planned for 1st/2nd October.	April 2015/April 2016 (subject to NRA approval for additional 12 months to implement) Estimated
Interoperability	ENTSOG is on track to deliver the Interoperability Code plus its 'Analysis of Decisions' document to ACER by its 11th September deadline.	Q4 2015 (Estimated)
Tariffs	Final FGs extended until Q4 2013 to allow more consideration of Cost Allocation methodology. ACER consultation on Cost Allocation methodology section of FGs closes out 17th September . ACER stakeholder workshop to be held 3rd September .	Estimated earliest mid January 2017
Incremental Capacity	CEER-ACER joint workshop held 3 June (Brussels) to discuss their Blueprint for Incremental Capacity. NG currently working with ENTSOG on formal ENTSOG response. Incremental expected to be introduced via combination of new articles in CAM Network Code and via Tariffs Network Code.	TBC

Future EU

- Timetable aims to highlight the key items (consultations, workshops, decisions, etc.) National Grid NTS expect to cover via this agenda item in the forthcoming months

Topic	TX Workgroup
<ul style="list-style-type: none">• Balancing update	October
<ul style="list-style-type: none">• Impact Assessment of Interoperability Code	November
