

CAPACITY ALLOCATION MECHANISM (CAM) MARKET DEMAND ASSESSMENT
FOR
INCREMENTAL CAPACITY AT INTERCONNECTION POINTS

2nd September 2025

Dear Industry Colleague,

In accordance with UNC European Interconnection Document (EID) section E 2.1.1.1 (Biennial Process), interested parties were invited to submit demand indications for Interconnection Points to National Gas NTS for a window period of 8 weeks, starting from 7th July 2025.

The CAM Incremental Capacity window for demand indications at Interconnector Points closed on 1st September 2025. National Gas Transmission received no responses to the consultation and therefore no Demand Indications. We will be producing Market Demand Assessment Reports jointly with each IP operator and will publish these on our website by the deadline of 27th October 2025.

If you have any questions concerning the above, please contact Natalie Ellard using the details below.
