

CAPACITY ALLOCATION MECHANISM (CAM)
MARKET DEMAND ASSESSMENT
FOR
INCREMENTAL CAPACITY AT INTERCONNECTION POINTS

29th August 2023

Dear Industry Colleague,

In accordance with UNC European Interconnection Document (EID) section E 2.1.1.1 (Biennial Process), interested parties were invited to submit demand indications for Interconnection Points to National Gas NTS for a window period of 8 weeks, starting from 3rd July 2023.

The CAM Incremental Capacity window for demand indications at Interconnector Points closed on 28th August 2023. National Gas Transmission received no responses to the consultation and therefore no Demand Indications. We will be producing Market Demand Assessment Reports jointly with each IP operator and will publish these on our website by the deadline of 23rd October 2023.

If you have any questions concerning the above, please contact Belinda Agnew and Niall Finn using the details below.
